Light is OSRAM

November 2017 News: Light is easy

Dear Ms Schuller,

We are delighted to count on partners like you to successfully grow business together.

In a world of continuous and fast changes through these monthly newsletters we will try to keep you up to date on OSRAM innovations with luminaires to solve different challenges in your daily business, state of the art lighting solutions and market updates.

With our three flagship brands – OSRAM, Siteco, Traxon Technologies – and our global expert network we provide intelligent, flexible and future-proof solutions and services exactly where you and your customers need them.

Let's shape the future of light together.

Kind regards,

Your OSRAM Partnership Team

Your light. Our passion.

Intelligent lighting solutions for the city

Where and when it is needed to enhance safety while

reducing energy consumption and light pollution.

Streetlight 11

With Streetlight 11 Siteco brings a new road luminaire with modern design, efficient performance and high quality of light, easy handling and low maintenance, intelligent controls and a future-proof luminaire concept.

Light is productive – lighting solutions for industry

Every operating environment has lighting requirements of its own. OSRAM Lighting Solutions has the wxpert

knowledge and experience to give your employees the perfect, bio-active, glare-free light they need to do their jobs right.

PrevaLight® Damp-proof

PrevaLight® Damp-proof is the robust lighting solution for standard applications in damp and dusty surroundings. Modern LED technology, robust housing and rapid installation make PrevaLight® Damp-proof a reliable refurbishment solution for installations with conventional damp-proof luminaires.

[more information](#)

AQUALINE® LED

AQUALINE® LED is the robust and durable luminaire for applications in damp and dusty surroundings. A solid housing, state-of-the-art lighting technology and a high protection rating make the AQUALINE® LED the ideal solution in challenging ambient conditions. The universal damp-proof luminaire, easy solution for demanding applications. The smart "Click & Light"-connection concept sets new standards in terms of speed and comfort on the LED lighting market.

[more information](#)

Lumiline IP65

Slender, compact and with high lumen output - LUMILINE® IP65 LED is the reliable and completely integrable lighting solution for applications with tight installation spaces and simultaneously high requirements for luminous intensity and resistance. Thanks to its linear, compact design and diffuse light distribution the luminaire is suitable for integrating in wall and ceiling slots, for designing with light contours and for all situations where

standard damp-proof luminaires are unsuitable due to size.

[more information](#)

Compact High Bay LED

Compact, robust and functional high bay solution. Compact High Bay as a rotationally symmetric highbay luminaire available in two construction sizes is ideal for applications in the industrial sector with mounting heights from 5 to 20 metres, and is highly suitable for refurbishing e.g. warehouses, circulation zones and workshops as well as production areas.

The right light makes work easier - lighting solutions for offices

OSRAM Lighting Solutions is your expert for advanced, energy-efficient lighting and light management systems tailor-made to provide the right working conditions for your employees.

TARIS Linear

Taris® is the new luminaire range for universal lighting in offices and public buildings. Thanks to its diversity of variants it finds use in highly different applications ranging from classic offices with VDU workstations and educational facilities to break rooms and ancillary rooms. The basis for its harmonious light and high visual comfort is the Optical Core System, a combination of louvre and lens technology with all-round light-guiding structures.

[more information](#)

APOLLON®

APOLLON® is an LED lighting solution for offices, meeting rooms, general building areas and foyers. The luminaire is

designed as a lay-in luminaire for system ceilings. The height of housing is only 26mm (with integrated ECG) and the sealed construction minimises soiling and maintenance costs. The integrated connection box enables rapid installation and also through-wiring with all versions.

[more information](#)

FLATLITE®

Inexpensive, durable and easily interchangeable - FLATLITE®

FLATLITE as a long-life replacement for traditional louvre solutions is ideal for most applications in offices and commercial buildings with strip ceilings. With uniform distribution of light without dark spots, the luminaire ensures pleasant illumination and good color rendering.
